2005 Annual DNR Spring Hearings & Conservation Congress Meeting Sample Resolution

The Problem:

Dinosaurs are a threat to agriculture across the state, especially in April and May, because they make deep footprints in newly planted farm fields, damaging the emerging crops. The problem is aggravated in southern Wisconsin, because dinosaurs are migrating across the state line to avoid hunting pressure in Illinois.

There is already an overpopulation of dinosaurs in Wisconsin.

At present, state law does not permit dinosaur hunting at any time during the year. We feel that Wisconsin law should be consistent with Illinois, which permits dinosaur hunting in the spring.

Whereas, Wisconsin farmers are suffering significant crop damage because of dinosaur incursions.

Whereas, There are already too many dinosaurs in Wisconsin, therefore

County on April, 20	ervation Congress at its annual m 005, recommends that the Departi y introducing rule changes allow	ment of Natural Resou	urces take hunting
